## **Request for Quote**

The GSA is seeking quotes from qualified electricians within the ranks of its members. The scope of work is as follows:

1. Coordinate with CL&P to provide a meter and power hookup in the area of the club entrance.
2. Provide all electrical services for the successful vendor of the front gate replacement project including proper permitting, power to the motor and power to the keypad/card reader.

Please address all your responses to my home address:

15 Bright Hill Drive  
Clinton, CT 06413

You may also submit your proposal to my email address – [pjakubson@snet.net](mailto:pjakubson@snet.net).

This request is being published for all current GSA members in good standing. All proposals will be reviewed at a future executive board meeting. In the event we do not receive a minimum of three proposals from club members, then it will be released to any qualified, outside vendor.

Respectfully submitted,

PAUL D. JAKUBSON  
President, GSA
